## 10. BYD Solar has established itself as a global bankable brand

### About BYD

BYD Company Ltd. is one of China's largest companies. It has successfully expanded globally in Europe, North and South America. Specializing in battery technologies, their green mission, to "solve the whole problem", has made them industry pioneers and leaders in several high-tech sectors including High-efficiency Automobiles, Electrified Public Transportation, Environmentally-Friendly Energy Storage, Affordable Solar Power and Information Technology and Original Design Manufacturing (ODM) services. BYD has made a strong entrance to the North, Central and South American markets with their battery electric buses, and lineup of automobiles. Their mission lies not just in sales growth, but also in sociological integration and local job creation as they have poured incredible investments into developing offices, dealerships and manufacturing facilities in the local communities they now call home, truly a first for Chinese companies.
